

Product Specifications

Silicone keyboard with integrated trackball

Model: D-87S

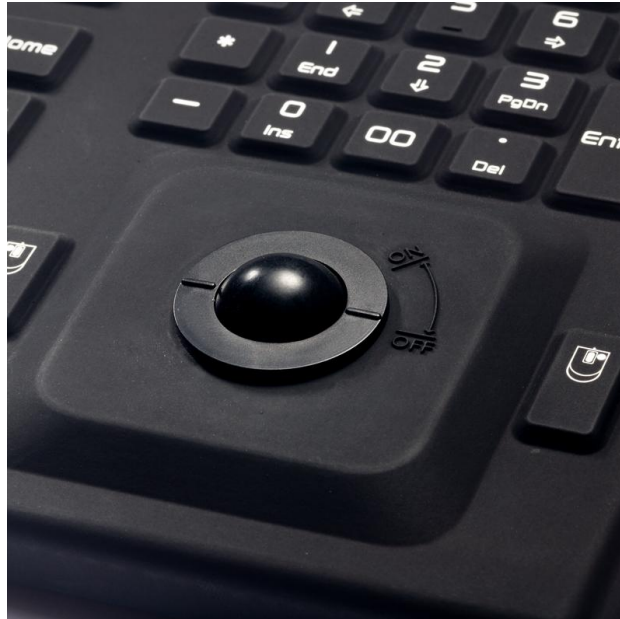

Main features

The all-rounder for low-light and darkened areas. This silicone keyboard is a simple mix of flat keys and a mini trackball. The keyboard also has a lot to offer from a technical point of view:

The gradual backlighting can be individually adjusted to the given lighting conditions and can be switched off via a separate key if required.

Completely sealed, the silicone keyboard part can be immersed in liquids (IP67), Note that the trackball part cannot enter the liquid, but the trackball can be detachable for cleaning.

Benefits:

- Built-in trackball
- Backlight adjustable
- Fully sealed (IP67)
- Disinfectable
- Excellent tactile feedback
- Quiet - noiseless keystroke
- Keyboard main power and backlight ON/OFF switch
- USB Interface
- Detachable trackball
- With Mouse left and right button

Technical Parameter
